[My Portfolio](#)

Activities & Leadership

IT Camp 22 — Networking Infrastructure

King Mongkut's Institute of Technology Ladkrabang (KMITL)

2025

(Top 2 Finalist)

- Completed a 4D3N Infrastructure program covering networking, IP & device management, routing, and Cisco Packet Tracer configuration.
- Selected as one of the top 2 finalist teams in the Infrastructure track presentation.

IT Clash 2026 — Team Lead

King Mongkut's Institute of Technology Ladkrabang (KMITL)

2026

(Game Track)

- Led the team through the IT Clash 2026 game track — coordinating roles and debugging under time pressure.
- Presented our multiplayer prototype to judges, sharpening technical leadership beyond solo coding.

AgriSpark Hackathon 2.0

King Mongkut's Institute of Technology Ladkrabang (KMITL)

2026

- An AI-powered agricultural advisory chatbot developed for the AgriSpark Hackathon 2.0. It integrates real-time weather APIs with Large Language Models to provide customized recommendations for cassava care and pest management.

Other

- Rapid AI/IoT prototype at Comcamp 37, KMUTT (6-hour build). 2026
- Presented Immune Knight at TMH 24 Finals, Chulalongkorn University. 2026

Key Skills

- Networking
- Cybersecurity
- Web Development
- Systems Management
- Game Development

Education

Secondary Education

Institution: Kanchanapisek Wittayalai Nakhon Pathom School

2021–2026

- Focus: IoT, Web Development, and AI
- 5 competition wins across web, AI, and IoT tracks

Primary Education

Institution: Phra Tamnak Suankulab Mahamongkol School

2017–2020

- Developed an early interest in computer science and technology
